My favorite toy is a kite. *Layang-layang* or a kite is a very popular pastime toy in Indonesia. Many people like to play it. There are two distinct types of kites. The first are those which have tails attached to them to balance the kite; and those that will be used for one-on-one dogfights among kite flyers.

Kites for dogfights are popular among boys. They do not have tails attached to them. They are made from light bamboo and waxed paper. The string is the most important part in kites for dogfighting. It must be sharp so it can cut other strings easily. To make such kind of string is not easy. It must be coated with crushed glass. The string is dipped in a solution of crushed glass, which has been boiled with glue, chemicals and dye. The mixture acts as an adherent so the tiny particles of glass will cling to the string. The string is strung out on a small rack to let it dry. This string is used for dogfights.

Gardenia plants are popular for the strong sweet scent of their flowers. Gardenia is the national flower in Pakistan. In Japan and China, the flower is called Kuchinashi (Japanese) and Zhi zi (Chinese).

Gardenia plants are evergreen shrubs. Their small trees can grow to 1 – 5 meters tall. The leaves are 5 – 50 centimeters long and 3 – 25 centimeters broad, dark green and glossy with a leathery texture.
